Applications are invited for a position in the Division of Neurosurgery at St. Michael’s Hospital, a fully affiliated hospital with the University of Toronto.

St. Michael’s Hospital is located in downtown Toronto, providing primary, secondary and tertiary care services for Toronto and Ontario. The Department of Surgery at St. Michael’s Hospital enjoys a proven track record in tertiary care surgical services with strengths in each of the surgical specialties. The Division of Neurosurgery of St. Michael's Hospital/University of Toronto is a large academic neurosurgery unit with fully appointed clinical facilities, a large dedicated neurotrauma intensive care unit, and new experimental and clinical research facilities. The Division at St. Michael's Hospital focuses on neurovascular disease, neurooncology, neurotrauma and critical care. The Institutional research profile is well established and has been further strengthened by the new research facility, the Li Ka Shing Knowledge Institute.

The successful candidate will be a neurosurgeon with interest in complex and/or minimally invasive spine surgery. It is expected that the candidate will conduct basic, translational and /or clinical research. Other responsibilities include patient care, teaching and trainee supervision that is aligned with the goals of the Neuroscience Program, Keenan Research Centre and Li Ka Shing Knowledge Institute.

The Candidates must hold a Fellowship in Neurosurgery from the Royal College of Surgeons of Canada (or equivalent) and hold, or be eligible for, an independent practice license from the College of Physicians and Surgeons of Ontario. He/she will be eligible for appointment in the Department of Surgery at the University of Toronto at a rank commensurate with his/her qualifications and academic achievements.

Applications, accompanied by a curriculum vitae and names of three references should be sent via email to Dr. R. Loch Macdonald.
